

UNITED EXPRESS

Operated by CommutAir

500 Professionals Committed to Excellence

Our fleet is equipped with state-of-the-art technology, including dual Universal FMS computers, and the Rockwell-Collins Heads-Up Guidance System (HGS).

Expert Pilots & Mentors, Friends for Life

"I'm thankful for my experience at CommutAir. I've gained so much experience here that I likely wouldn't have if I had gotten on somewhere else. It has taught me how to be a good, smooth pilot and I feel ready for upgrade when it comes. They aren't kidding when they tell you in the interview that they are hiring future captains, not first officers."
-CommutAir First Officer

A Company that Cares

Whether you're looking for your first airline job or your last, you should ask yourself a few simple questions:

- ✔ What defines my quality of life?
- ✔ What are my short and long term goals?
- ✔ Who are the people I want to surround myself with?

CommutAir prides itself on its family-centric corporate culture, and our goal is to help you **achieve your goals.**

Are you looking for a place to call home?

Expanding from five cities in New York to over 25 cities in over 14 states and Canada, our 500 member family remains one of the strongest and few remaining independently held carriers. We know what it means to have a goal; we've worked hard to reach ours, and we want to help you achieve yours.

Rich in History >>>

CommutAir's history, and that of its senior management team, goes back over 30 years. Its predecessor companies include Clinton Aero, Air North and Brockway Air. Over the years, these companies operated as Allegheny Commuter, Piedmont Commuter, and US Air Express. CommutAir launched operations in 1989 as a Part 135 operator in Plattsburgh, NY with two Beech 1900s. The operation quickly grew to include a fleet of 32 aircraft serving dozens of cities throughout the Northeastern US. In 2000 the Company began operating under a code share agreement with Continental

(now United). Beginning in 2006 the Company began phasing out the 1900s in favor of larger cabin-class Dash-8's serving Continental's Cleveland hub. Over the next several years CommutAir added a second Continental hub (Newark) to its route map and subsequently added the larger 50-seat Q300 aircraft to its operation. The present day operation spans over 25 cities in over 14 states from United's hubs in CLE, EWR and IAD. Looking ahead, we believe the future looks bright as we signed a long term contract extension with United in 2013.

High School or College Students:

- ✔ Speak with your career counselor or academic advisor to discuss your goals.
- ✔ Contact us to speak to a pilot recruiter and to learn about our unique collegiate bridge programs and interview agreements.
- ✔ Visit us at www.flycommutair.com or at a campus near you.

Experiences to Build Upon >>>

Training that Sticks >>>

No one flies an airplane like a turbo-prop pilot, and nobody operates turbo-props as successfully as

CommutAir. We train our pilots as captains from the start during our 3 1/2 week ground school. Ground school is followed immediately by a 2 week flight training course in the full-motion Dash-8 simulator. Following your checkride, your first 20-30 hours in the plane will be with an expert check pilot and mentor.

As a turbo-prop pilot in the northeastern US, you will become the expert authority in challenging

weather, advanced aerodynamics, and the busiest air traffic corridor in the world. Aircraft operators know

this, and as a result CommutAir alumni can be found at United Airlines, Delta Air Lines, Southwest, US Airways, JetBlue, FedEx, UPS, NetJets, and several other major industry leaders. What are you waiting for? Come fly with us!

Commercial or Airline Transport Pilots:

- ✔ Contact us to speak to a pilot recruiter and to explore your options.
- ✔ Apply for jobs at www.flycommutair.com.
- ✔ Our recruiters will contact you to schedule an interview and discuss the next steps.

Takeoff with CommutAir

We have a tradition of safe, efficient, reliable, and comfortable air transportation service. CommutAir operates approximately 150 flights daily, transporting **over 1,400,000 passengers per year** in the largest Dash-8 Q200 fleet in the world. We sincerely look forward to welcoming you to our family and helping you **achieve your goals!**
